

PRATHAM PATEL

Full Stack MERN Developer

☎ +91-9510043546 ✉ patelpratham580@gmail.com 🔗 linkedin.com/in/prathampatel

Summary

Full-Stack MERN Developer skilled in React.js, Node.js, Express.js, and MongoDB with experience building scalable web applications and AI-powered features. Proficient in integrating AI APIs, developing secure RESTful backends, and creating modern responsive user interfaces. Passionate about leveraging AI and modern web technologies to build impactful real-world software.

Skills

Programming Languages: JavaScript , C++ , Java , C

Frontend Technologies: HTML5, CSS3, React.js, Redux Toolkit, Axios

Backend & Database: Node.js, Express.js, REST APIs, MongoDB, Redis, Mongoose, Cloudinary Storage

Tools & Core Skills: Git, GitHub, Postman, VS Code, JWT Authentication, CRUD, Debugging

AI Integration / AI-powered Features: Google Gemini API, Building AI Chatbot

Experience

Team Leader – Smart India Hackathon 2025

OCT 2025 – NOV 2025

Blockchain-Based Supply Chain Transparency

React.js, Node.js, MongoDB, Git

- Led a team of 6 members to develop a blockchain-based solution for supply chain transparency, winning the internal hackathon.
- Coordinated project planning, task allocation, and code reviews, ensuring timely delivery and high-quality implementation.
- Guided the team through full-stack development, database management, and smart contract integration, enhancing efficiency and transparency.

Projects

Swiggy Frontend Clone | *React.js*

March 2025 – April 2025

- **Developed a dynamic and responsive Swiggy Clone** using React.js, Tailwind CSS, React Router, and Redux for state management.
- Implemented reusable components, dynamic UI updates, and smooth navigation to mimic real-world food delivery app functionality.
- Managed application state efficiently with Redux, handling cart updates, menu selection, and user interactions.
- Delivered an interactive and visually appealing interface, enhancing user experience and showcasing modern frontend development skills.

CodeShastra – AI Powered Coding Platform | *MERN + AI*

Aug 2025 – Dec 2025

- Built a fast and user-friendly LeetCode clone where users can solve problems, track progress, and view solved challenges.
- Developed frontend using React.js, Tailwind CSS, React Router, Redux, and react-hook-form for form validation and user input handling.
- Implemented backend APIs and tested endpoints with Postman, ensuring smooth data flow and problem management.
- Integrated an AI-powered Chat Assistant to provide hints, explanations, and guidance for solving coding problems.

Awards & Certifications

- **Winner – Internal Hackathon (SIH 2025):** Led a team to develop a blockchain-based supply chain transparency solution, guiding the team through planning, development, and implementation.
- **Blockchain Certification – LLDAO 2024:** Achieved certification in blockchain fundamentals and applications; recognized for successfully completing the program (Certificate ID: LLDAO-2024-555)

Education

B.Tech Information Technology

GraduateIn: 2027

ADIT College, Anand

CGPA: 8.70 / 10
